

## Product Specification

|                   |                            |
|-------------------|----------------------------|
| ProductName       | Tantalum powder (Ta)<br>钽粉 |
| Catalog No.       | 7301009                    |
| CAS No.           | 7440-25-7                  |
| Molecular Formula | Ta                         |
| Molecular Weight  | 107.87                     |
| Bp °C             | 5425 °C                    |
| Mp °C             | 2996 °C                    |

---

| Test          | Standard       |
|---------------|----------------|
| Purity        | 99.95 %        |
| Particle Size | 6-10 μm (FSSS) |
